Technosoft

Here I am gonna tell you about the procedure for getting the job in

There are three phases

1. Recruitment Test
2. Interview with SDM
3. Interview with CEO

Recruitment Test

It contains a set of Questions based on OOP, DSA ,DB ,Design Patterns ,IQ Questions ,Brain Teaser Questions. It was almost 2 hours test but easy ;)

These are some Questions that I do remember

- Make a Class Diagram of this Scenario
- Write a function using less than 20 LOC?(I had used recursion in that)
- Define Prototype,Adapter,Structural,Stragety Design Pattern.
- Find same figures in a set of figures(IQ Qs)
- Give some good and bad points about Technosoft
- Write reason of downfall of Pakistan

And many more………

Interview with SDM

It was a 30 minute interview with Sir Muhammad Asif(Software Developer Manger @ Technosoft).Interview was good with such a nice personality.

These are some Questions that I do remember

- Make DB of your FYP project

- What is Cohesion and Coupling
- Some Qs that You have attempted in your Recruitment Test(there reason)
- Differenciate between Aggregation and composition (definition,example,implementation)
- What is black Box and White Box testing ,who do this testing ,difference between white box and unit testing
- Give me your two strengths and two weaknesses
- Any Qs from me about Technosoft
- Tell me fault in this room

And many more………

Interview with CEO

It was last meeting.Congratulations if You have passed previous two stages ☺ .It was a 45 minute interview with Sir Anis(CEO @ Technosoft).Interview contains Qs from OOP,DB,.NET,JAVASCRIPT,JQuery,Design Patterns ,CN,DSA,QA.

It was having different stages:

1. Asked me to ask Qs from him
2. Asked Qs
3. Communication check scenario
4. Again Asked me to ask Qs from him
5. Told me about my Answers Reviews

These are some Questions that I do remember

- Explain your FYP project
- What is Cohesion and Coupling
- Gave me my Recruitment Test and asked me to correct some wrong attempted Qs
- Differenciate between Aggregation and composition (definition,example,implementation)

- Tell me fault in this room
- What is difference between string.builder and ___
- What is tr and td in html
- What is difference between select and option in HTML
- What is top most element in DOM
- What is indexing
- Pros and cons of indexing
- What is the difference between clustered and non clustered index
- What is difference between inner join and outer join
- What is datatype in db in which we send key and it returns key and value both
- What are OSI names
- Difference between MAC and IP
- Difference between TCP and UDP
- What Authentication in .Net
- What is hashing
- What is thresholding
- Difference between linked list and stack
- Tell me algorithm of Merge Sort
- What is regression testing
- Define Quality
- What are non functional Quality requirements

And many more………

Wish you good luck , remember me in your Prayers…..
